Learning starts with counting fingers and toes. Before you know it, it's chapter books and multiplication tables. In between are the building blocks of early education, where young children establish the foundation for a lifetime of learning.

At **Bright Horizons**[®], your child will be cared for in a loving and nurturing environment by experienced and dedicated teachers. Our carefully crafted programs are age appropriate, all with the goal of encouraging curious, happy, and confident children, who, above all, fully experience the joys of childhood.

A Bright Horizons experience includes:

- ▶ Experiences that inspire children to imagine, create, and investigate
- ▶ Health, safety, and security policies that meet or exceed state and local standards
- ▶ Experienced teachers who focus on each child's individual development
- ▶ Supportive and strong parent community
